

# WOODFOLD

CRAFTING VALUE FOR MORE THAN 50 YEARS

## CUSTOM ACCORDION DOORS

# Beyond crafting value for over 50 years, it's all about people & relationships.

Woodfold has been crafting value for more than half a century. Combine this history with today's most advanced computers and machinery and the result is an unsurpassed level of quality, efficiency and precision.

Pair that expertise with a 100% employee owned company and you have a culture filled

with extreme pride and a relentless drive to provide our customers with unsurpassed products and the shortest delivery times available in the industry. Our commitment to our customer has, and always will be, our number one focus.

Through the years we have also come to understand that for our business to endure we must consider the relationships between the environment, our community and its people. As a responsible member of our small environmentally sensitive Oregon hamlet, sustainability is something we enthusiastically practice each and every day.

Our FSC certification\* is just one more example of our commitment to supply our customers with the most environmentally friendly door products available today.

## The Woodfold Guarantee

All Woodfold doors are custom made to fit each opening and warranted against failure due to defective materials or workmanship.

[www.woodfold.com](http://www.woodfold.com)

## The Nuts And Bolts Of Our Nuts And Bolts

Our exclusive steel hardware system is designed to keep doors operating smoothly and lends fantastic strength and longterm durability. It also means the doors stay solidly in place while both open and closed.

## How Woodfold Door Packaging Even Protects Your Reputation

Because our accordion doors are often the final piece of a project's puzzle, the last thing you need inhibiting your project's completion is a door arriving damaged. Knowing this, we individually carton doors that are up to 15' wide. Single doors over 15' wide and Series 3300 doors are always wood crated, thus ensuring everything possible is done to have all pieces arrive undamaged.

## Recent Projects

You'll find Woodfold accordion doors in a great many towns across this land— probably in a lot closer proximity to your office than you thought. To find a list of our recent installations nearest you, please visit our web site.

## ADA Compatible

The Series 140, 220, 240, 440, and 540 were tested for ADA compliance for opening load force per ADA/BOMA SEC 4.1311. Tests conducted by MEI Charlton, Inc., Portland, OR. Certain ADA applications may call for specific handle location placement. Consideration must be given to finished opening widths to meet ADA requirements. Please specify with order.

# Proof that accordion doors and general Oregonian ingenuity are not all that comes out of our workshop.

## Custom Roll-Up Doors

Crafted from select hardwoods, our roll-up doors coil conveniently overhead and are wonderfully suited for a wide variety of commercial and residential applications that call for security as well as aesthetic appeal.

## Custom Wood Shutters

Enhancing interior design and the function of today's larger windows, sustainable Western Red Alder, plantation-style interior shutters are offered for commercial and residential settings in louver widths to 5-1/2".

## Bookcase Doors

Our unique Bookcase Door System offers a distinctive, space-saving option for homes, lofts, efficiency units, offices, or anywhere space is limited or privacy is important. Easy to open or close it's built strong and supports a load of up to 500 pounds.

# Woodfold Door Series 240

Commercial to residential. Institutional to industrial.  
It's the industry leading accordion door.

No matter what space you need divided, chances are the Series 240 is the door to perfectly suit your needs. Combining the merits of durability and function with natural beauty, the Series 240 saves on floor and wall space. It also gives you choices like curvable track, locks, latches and multiple meeting posts. Simply put, the Series 240 doesn't force the choice between an elegant door and flawless functionality.

*For construction details please see page 12.*

## Series 240 Product Specifications

*Complete Product Specifications:*

*Please visit [www.woodfold.com](http://www.woodfold.com)*

**Panels:** 4-1/4" wide by 1/4" thick. Vinyl-Lam or hardwood veneer faces.

**Panel Connectors:** Flexible vinyl, color-coordinated to panel selection.

**Track:** 1-1/8" x 1" aluminum, dark bronze, clear or gold finish. (Curvable option available)

**Wheels:** Nylon wheel on steel axle with ball bearings supplied as standard.

**Lead Post:** 3/4" x 2-3/4" aluminum, color-coordinated to panel connector.

**Jamb Molding:** 1" wide by 3/8" deep aluminum.

**Latch:** Deadlatch with thumbturn two-sides. (Keylocks or magnetic catch options available)

**Handle:** Molded plastic with finger recess.

**Width:** No limitation.

**Height:** Vinyl-Lam up to 12'-1".  
Hardwoods up to 10'-1".

**Stacking Space:** 1-1/4" per foot plus 2-3/4" for lead post.

# Woodfold Door Series 440 & 540

## Visifold, see-through commercial security doors.

Combining the smooth, flawless operation of the Woodfold hardware hinge system with enhanced security between panels thanks to a rigid molded plastic hinge over a steel rod, the Series 540 offers an unobstructed view of what's inside while assuring protection.

The Series 440 uses the same construction, yet features a flexible vinyl panel connector in place of the knuckle hinge and steel rods. Also available with latch modifications, the Series 440 is a wonderful choice for space division where the added security of the Series 540 is not required. Additionally, the entire Visifold line can also be customized by combining acrylic panels with hardwoods, vinyl-lams or aluminum panels.

*For construction details  
please see page 12.*

### Series 440 & 540 Product Specifications

*Complete Product Specifications:*

*Please visit [www.woodfold.com](http://www.woodfold.com)*

**Panels:** Acrylic panel (transparent clear or bronze) inserted into aluminum side channels (bronze, clear, gold, sand and white) yielding 4-1/4" overall width.

**Panel Connectors:** Panel connectors color-coordinated to side channels.

Series 440 – Flexible vinyl.

Series 540 – Rigid vinyl with steel rods.

**Track:** 1-1/8" x 1" aluminum, dark bronze, clear or gold finish. (Curvable option available)

**Wheels:** Nylon wheel on steel axle with ball bearings supplied as standard.

**Lead Post:** 3/4" x 2-3/4" aluminum, color-coordinated to side channels.

**Jamb Molding:** Series 440 - 1" wide by 3/8" deep aluminum.  
Series 540- 1-5/8" wide by 1" deep aluminum.

**Latch:** Series 440 - Deadlatch with thumbturn two-sides.  
(Other options available)  
Series 540 – Keylock two sides.  
(Other options available)

**Handle:** Molded plastic with finger recess.

**Width:** No limitation.

**Height:** Up to 10'-1".

**Stacking Space:** 1-1/4" per foot plus 2-3/4" for lead post.

**ADA COMPATIBLE**  
(See page 3.)

# Woodfold Door Series 640 & 740

## Alumifold security doors.

A sturdy door that incorporates the smooth operation of our exclusive hardware hinge system the Series 640 and 740 feature single-piece, extruded aluminum body panels. Suitable for a variety of installations that require strength yet beauty and function, you'll appreciate design options like solid or perforated aluminum, in bronze, gold or clear (silver) finishes for a streamlined, modern look.

*For construction details please see page 12.*

### Series 640 & 740 Product Specifications

*Complete Product Specifications:*

*Please visit [www.woodfold.com](http://www.woodfold.com)*

**Panels:** 4-1/4" wide solid or perforated aluminum in bronze, clear or gold.

**Panel Connectors:** Panel connectors color-coordinated to panels.

Series 640 – Flexible vinyl.

Series 740 – Rigid vinyl with steel rods.

**Track:** 1-1/8" x 1" aluminum, dark bronze, clear or gold finish. (Curvable option available)

**Wheels:** Nylon wheel on steel axle with ball bearings supplied as standard.

**Lead Posts:** 3/4" x 2-3/4" aluminum, color-coordinated to panel connectors.

**Jamb Molding:** Series 640 – 1" wide by 3/8" deep aluminum.  
Series 740 – 1-5/8" wide by 1" deep aluminum.

**Latch:** Series 640 – Deadlatch with thumbturn two-sides.  
(Other options available)  
Series 740 – Keylock two sides.  
(Other options available)

**Handles:** Molded plastic with finger recess.

**Width:** No limitation.

**Height:** Bronze and Gold up to 8'-1".  
Clear up to 10'-1".

**Stacking Space:** 1-1/4" per foot plus 2-3/4" for lead post.

# Woodfold Door Series 2100

## Single-wall doors for some degree of sound reduction.

Delivering sound reduction in an attractive, reasonably priced, single-wall door, the Series 2100 is ideal wherever some degree of sound reduction\* is needed. These single-wall acoustic partitions also save floor and wall space while allowing the reconfiguration of a facility at a moment's notice.

Moreover, the Series 2100's full-perimeter seal minimizes heat loss or air exchange between rooms by adding an extruded vinyl sweep system on top and bottom, acoustically sealed track, ceiling guard and interlocking jamb molding with sound gasket.

*For construction details please see page 13.*

*\*Field Sound Transmission Class: The Series 2100 door has a field sound transmission class rating of (FSTC) 21. Field tests were performed by Bruck, Richards & Chaudiere, Inc. of Seattle, Washington following the procedures specified in ASTM designation E 336-77.*

### Series 2100 Product Specifications

#### Complete Product Specifications:

Please visit [www.woodfold.com](http://www.woodfold.com)

**Panels:** 4-1/4" wide by 1/4" thick. Vinyl-Lam or hardwood veneer faces.

**Panel Connectors:** Flexible vinyl, color-coordinated to panel selection.

**Track:** 2" x 1-1/8" aluminum, dark bronze or clear finish.

**Sound Seal:** Flexible vinyl sweep strips mounted on top and bottom of door. Wood molding mounted on both sides of track forming 4-7/8" wide sweep surface.

**Wheels:** Nylon wheel on steel axle with ball bearings supplied as standard.

**Lead Post:** 3/4" x 2-3/4" aluminum, color-coordinated to panel connectors.

**Jamb Molding:** 1-5/8" wide by 1" deep aluminum.

**Latch:** Deadlatch with thumbturn two-sides. (Keylocks or magnetic catch options available)

**Handle:** Molded plastic with finger recess.

**Width:** No limitations.

**Height:** Vinyl-Lam up to 12'-1".  
Hardwoods up to 10'-1".

**Stacking Space:** 1-1/4" per foot plus 2-3/4" for lead post.

# Woodfold Door Series 3300

## Dual-wall doors for moderate sound reduction.

One of the most attractive ways to literally draw the line between loud and quiet, the 3300 is perimeter-sealed and acoustic-lined for wonderful sound insulation\*.

Matching dual-wall construction with the proven durability of Woodfold's exclusive hardware hinge system and rigid body panels, the Series 3300 also conveniently allows the selection of alternate finish materials on each door face.

*For construction details please see page 13.*

*\*Field Sound Transmission Class: The dual-walled Series 3300 Acoustical Partition has a field sound transmission class rating of (FSTC) 33. Field tests were performed by Bruck, Richards & Chaudiere, Inc. of Seattle, Washington following the procedures specified in ASTM designation E 336-90.*

### Series 3300 Product Specifications

*Complete Product Specifications:*

*Please visit [www.woodfold.com](http://www.woodfold.com)*

**Panels:** 4-1/4" wide by 1/4" thick Vinyl-Lam or hardwood veneer faces.

**Panel Connectors:** Flexible vinyl, color-coordinated to panel selection.

**Track:** 2-7/16" x 1-3/4" aluminum, clear finish. (Heavy-duty aluminum ceiling guard with separate track available)

**Sound Seal:** Dual-wall door with internal sound absorbent material, flexible vinyl sweep strips mounted on top and bottom of the door. Wood molding mounted on both sides of track forming 11-5/8" wide sweep surface.

**Wheels:** Nylon wheel on steel axle with ball bearings supplied as standard.

**Lead Posts:** 2-7/8" x 4-1/2" aluminum, color-coordinated to panel connectors.

**Jamb Molding:** 2-1/8" wide by 15/16" deep aluminum.

**Handles:** Molded plastic with finger recess.

**Latch:** Deadlatch with thumbturn two-sides.  
(Keylock option available)

**Width:** No limitation. (Intermediate rolling post[s] required on doors exceeding 15')

**Height:** Vinyl-Lam up to 12'-1".  
Hardwoods up to 10'-1".

**Stacking Space:** 2" per foot plus 4-1/2" for lead post.

# Woodfold Door Series 140

## Residential closet doors.

The Series 140 is found throughout the Americas in single-family homes and is routinely specified in college dormitories, retirement homes, assisted living facilities and hospitality applications. It uses a modified version of the commercial-quality Series 240 door hardware to create a space-saving option for close-quarter applications. The Series 140 is a single door only (no pairs) and is finished on one side, providing convenient access to closets or various utility spaces. You're assured of smooth, quiet operation from our exclusive pin hinge hardware system, a sweptwing handle and integral magnet with strike plate. What's more, a variety of durable vinyl and hardwood panel options are available.

Full length sweptwing handle with integral magnet, finger-pull front side.

First panel acts as lead post. Angles to wall or jamb. (Designed as a single door unit, no pairs.)

**Note:** The durable Woodfold Series 140 & 220 are affordable, yet no less quality options to the Series 240, namely because they're made for residential applications that do not require the extensive features of a commercial door.

For construction details please see page 12.

### Series 140 Product Specifications

Complete Product Specifications:

Please visit [www.woodfold.com](http://www.woodfold.com)

**Panels:** 4-1/4" wide by 1/4" thick. Vinyl-Lam or hardwood veneer faces, with utility back.

**Panel Connectors:** Flexible vinyl, color-coordinated to panel selection.

**Track:** 1-1/8" x 1" aluminum, dark bronze, clear or gold finish.

**Wheels:** Nylon wheel with lexan axle.

**Handle:** Full-length sweptwing handle attached to first panel, color-coordinated to panel connectors. Specify left or right stack.

**Catch:** Magnet with strike plate.

**Width:** Up to 8'-0".

**Height:** Up to 8'-1".

**Stacking Space:** 1-1/4" per foot plus 7/8" for sweptwing handle.

**ADA COMPATIBLE**  
(See page 3.)

# Woodfold Door Series 220

## Residential room dividers and doors.

Our Series 220 is equally attractive and durable as the Series 140, but is finished on both sides. Featuring, of course, our exclusive pin hinge hardware system for smooth operation, strength and durability. The Series 220 is a wonderful option for efficiency-style housing units, basement or family room recreation areas and galley-style kitchens where the door is commonly viewed from each side. The Series 220 is a single door only (no pairs). Naturally, a variety of durable vinyl and hardwood panel options are available.

*For construction details please see page 12.*

### Series 220 Product Specifications

*Complete Product Specifications:*

*Please visit [www.woodfold.com](http://www.woodfold.com)*

**Panels:** 4-1/4" wide by 1/4" thick. Vinyl-Lam or hardwood veneer faces.

**Panel Connectors:** Flexible vinyl, color-coordinated to panel selection.

**Track:** 1-1/8" x 1" aluminum, dark bronze, clear or gold finish.

**Wheels:** Nylon wheel with lexan axle.

**Handle:** Full-length sweptwing handle attached to first panel, color-coordinated to panel connectors. Specify left or right stack.

**Catch:** Magnet with strike plate.

**Width:** Up to 8'-0".

**Height:** Up to 8'-1".

**Stacking Space:** 1-1/4" per foot plus 7/8" for sweptwing handle.

**ADA COMPATIBLE**  
(See page 3.)

# Woodfold Panel Selections

## Natural Hardwood Veneers

Woodfold's hardwoods represent the most popular natural hardwood species used today. We insist on select grade veneers laminated to an engineered core to ensure excellent dimensional stability. Clear finish is standard, however custom stain finish service is always available. We simply ask that you supply physical color samples for matching.

Birch

Maple

Oak

Cherry

Mahogany

Walnut

## Vinyl-Lam Woodgrains

Incredibly realistic in appearance, our Vinyl-Lam woodgrain finishes provide a wide range of color selection representing several wood species. Woodfold's Vinyl-Lam finishes are laminated to an engineered core to ensure excellent dimensional stability.

Birch

Maple

Natural Oak

Light Oak\*

Dark Oak

Cherry

Teak

Mahogany

Walnut

## Woodfold Custom Finish Services

Our services include custom paint and stain finishes. Other custom panel materials can be specified. Contact your Woodfold distributor for more information.

## Acrylic Panels

Visifold Series 440 & 540 doors are available with .118 inch thick, transparent clear or bronze acrylic panels. Other .118 inch thick panel options are available by quotation.

## Vinyl-Lam Solid Colors and Textures

Our solid color, multi-textured vinyls are selected to complement the most popular current interior colorations. Woodfold's Vinyl-Lam finishes are laminated to an engineered core for excellent dimensional stability.

Chalk\*

Tahiti

Rattan

Amethyst

\*Note: Light Oak vinyl and Chalk vinyl available with Class 1 fire retardant core.

White

Tan

Gray

## Vinyl Panel Connectors

White Sand Silver Brown

Woodfold carefully color coordinates its vinyl panel connectors as a standard feature. Combinations include: White with White, Chalk and Amethyst; Sand with Hardwood Birch, Hardwood Oak, Hardwood Maple, Birch Vinyl, Natural Oak Vinyl, Maple Vinyl, Tan, Tahiti and Rattan; Silver with Gray Vinyl; Brown with all other body panels.

*PLEASE NOTE: The best photo/print reproduction methods are utilized in the production of this full-color brochure. Intended as a guide for color selection, the actual finish materials will vary due to the natural and acceptable variations in grain characteristics, textures and color tones. If color, grain or tone match is critical, please see an actual color selection chip or refer to Woodfold's custom finish service.*

# Woodfold Decorative Options

## Custom Logos

Custom designed and applied logos, trademarks or corporate images may be applied to Woodfold doors by implementing newly developed manufacturing techniques. To ensure the best reproduction possible, please provide high-quality artwork and contact your distributor or our office for more details about acceptable file formats.

## Decorative Laminates

High-pressure decorative laminates may be specified for application on all Woodfold doors. Woodfold's wide selection gives you an exceptionally diverse choice. As a rule, high-pressure laminates are specified for their durability and ease of maintenance. Typical installations include hospitals, laboratories, restaurants, etc., where these features are essential.

Rather than offering a limited quantity of standard colors, Woodfold's custom service allows the selection from all nationally recognized brand laminates. Please advise pattern number and manufacturer's name such as:

## Wall Coverings

You can enhance your accordion doors or room dividers with specified wall covering material, which further enable us to match and complement the interior wall selections. Additional details on this custom service are available from Woodfold by contacting your distributor or our office.

## Special Hardwood Veneers

Other exotic and special hardwood veneers are also available. Please contact your distributor or our office for further details.

## Murals

Available in a wide range of sizes, decorative murals provide an additional option for residential or commercial room dividers. An example is shown below.
